Shenzhen Loyal Electronics Co., Ltd

About Us

Shenzhen Loyal Electronics Co., Ltd was established in Aug. 2009 with the focus in the computer peripheral devices including the keyboard, mouse, presenter, and smart home controller, etc. To cater for the market and customers’ requirements, we have already generated a wide range of unique products, such as Foldable Mouse, Touch Keyboard, Trackball Keyboard, Multi-device mouse and keyboard, Smart Home Controller, High-end gaming mouse and keyboard, etc.

After years’ exploration and development, we have developed into a medium-sized factory intergrading ID design, tooling development, manufacture, and sale service from an Electronic solution provider.

OEM and ODM services are available. We have established a good and trust relationship in all major European, North America, Japan, and Korea market.

We own a 5,000 m² standard factory and 1500 m² dormitory, around 150 employees. We have built a Reliability laboratory which enables us to evaluate the products’ life cycle, performance and Environmental directives. The product environment quality management system is established based on the system of BSCI and ISO9001:2015.

Our products are able to pass CE, FCC, KC, RoHS, Reach, PaHs, SCCP, Prop 65, PHALATES, etc.
