

# N150 Portable Power Station

## Specifications

- Battery power:50400mAh/161.28Wh
- Dimensions:168\*117\*130MM
- Input:15V 2A DC input charging
- Output:150W continuous output , peak power 250W
- 3\*USB output (2\* 5V 2A, 1\*QC3.0 )
- 2\*12V 10A DC output
- DC Output: 5.5mm DC output 12V 10A \*2
- LCD screen indicator
- Emergency bright LED light, SOS light, Strobe light, Red and Blue warning light

## Hilights

### 1. Small size, big capacity: 50400mAh, 161.28Wh

#### Power supply time:

Laptop 30W: about 4 hours

Fan 50W: about 2.5 hours

TV 60W: about 2 hours

Security Camera 10W: about 11 hours

### 2. 3 modes power supply

#### A. 220V AC inverter power

\*Support Mahjong machine, Fan, Audio speaker, TV, Juicer

#### B. DC12V

\*Support Laptop, Security Camera, set top box,drone,dust catcher

#### C. USB charging

3 USB output, 1 QC3.0 quick charging USB, automatically recognize the connecting device, and supply the matching voltage for different devices.

\*Support iPhone, android phone, tablet PC, SPS, PSP, etc

### 3. 4 modes lighting

High brightness light, brightness adjustable

SOS light

Warning light

Strobe liht

### 4. High definition LCD

\*Display power level, current, voltage, AC on, DC on

### 5. 8 protections

Low voltage protection, Over voltage protection, Over heat protection,Overload protection, Surge protection, Reverse connect protection,Short-circuit protection, Over current protection

### 6. Cooling fan

Built in cooling fan, when the machine internal temperature is over 40℃, the fan starts work automatically.

### 7. It can match different needs

It is needed when outing, camping, self-driving touring,exploration, outdoor emergency, home emergency
